AUGUST 2009 NEWSLETTER

Greg Booth, General Manager

Board of Directors:

Merle Gillespie, Don Hooper, Bob Wiggins, Steve Petersen, Janet Willey

Geographical Information System (GIS)

Clatskanie PUD has contracted with the Davey Resource Group (DRG) to update our GIS, a digital mapping system that provides detailed information about our electrical system. DRG has already begun the mapping process and you should expect to see them around the community. They will be physically visiting and recording information about every pole, transformer and meter in our system. Work is expected to continue through November. The DRG professionals will be easily recognizable by their marked apparel and vehicles and they will be carrying identification should you need to ask for it. CPUD employees and our contractors need access to PUD-owned equipment that is on your property. Access is necessary to assure electrical service. CPUD is willing to work with individual customers should there be an access issue. If you have any questions, please call the PUD.

Format Change on Your Bill

Starting August 1, CPUD is changing the format on a section of your power bill. Prior to this change, we listed the **Energy KWH** and the **Distribution Charge Energy** as separate line items on the bill. Those together equal .0395 which is the rate you currently pay for electricity per kilowatt hour (kWh). We have now combined those two line items and you will now see only **Energy KWH** with the combined rate of .0395/kWh.

Semi-Annual Newsletter

CPUD customers will be receiving the second edition of High Lines during the month of August. High Lines is our semi-annual newsletter that made its debut in January and is intended to keep you up to date with PUD projects and events. If you don't receive one, just let us know and we will send one to you.
