Greg Booth, General Manager

### Work Resumes on New Clatskanie PUD Headquarters

Phase two of the site preparation for Clatskanie PUD's new headquarters facility got underway Tuesday, August 4, 2009. CPUD is developing the almost-9 acres that borders Highway 30 and Truhaak Street, adjacent to the Wauna Federal Credit Union for the new facilities that will include an office building, warehouses, maintenance shop and storage. M & M Earthworks of Tigard, OR, the contractor who completed the initial clearing and filling last fall, is back at work clearing the remaining brush and trees and preparing the final site surcharge for the future locations of the buildings. 5,000 cubic yards of fill was recently removed from the new Clatskanie Substation site and moved to the new headquarters site. Leo Quiachon, CPUD Project Manager, estimates that move saved the PUD approximately \$50,000, had the PUD purchased the fill elsewhere. This phase of work will continue through the end of August and construction is expected to start next Spring. According to Greg Booth, General Manager, the anticipated move-in date of the new facilities will be January 2011. If you have any questions about this work, please call the PUD (503) 728-2163.

Work started Tuesday removing the remaining trees between the Wauna Federal Credit Union (in background) and the new CPUD headquarters site.
